

December 4, 2007

**TO OUR VALUED CUSTOMERS:**

Thank-you for your business in 2007! On behalf of Wingenback Inc., it is my pleasure to update you on several exciting changes that are occurring and will continue well into 2008. In our efforts to build on our successes over the past 32 years, we are again improving and reorganizing some of our key departments and facilities in Alberta.

To continually improve our inter-company communication, ensure quality service, and the production of high quality products, we are planning to consolidate our operations in the Calgary area under one roof. Our *Head Office, Project Management & Construction, and Calgary Moving* facility based in Calgary as well as our *Crossfield Manufacturing* facility will be merged into one strategic facility in mid 2008. Doing this will ensure excellent communication, quality services and products, and gain us further efficiencies in our day to day operations, while opening up other avenues for growth.

We are continuing to align ourselves with strategic partners to supply top quality, high-tech developed parts in our manufacturing and assembly process. Because of this we are able to offer the "Best Value" for our customers whether the products required are ATM surrounds, wall mounts or kiosks. With our streamlined manufacturing and assembly model we are continuing to add customers in Canada and abroad who demand only "Wingenback Products".

Our Moving Divisions are as strong as ever, with increased demands for commercial and industrial moving in Alberta, B.C. and Ontario. We continue to grow specialized areas such as MRI installs for public and private health care facilities, as well as facility project management moves in office towers and other commercial buildings. In addition, our Project Management & Construction Division continues to grow at a tremendous pace, with an all time high for the demand for renovations and building projects in Western Canada.

Wingenback has an exciting future ahead as we align our company for the next decade. Our key initiatives of hiring exceptional management and employees as well as providing our customers with world class service and products is key for our continued success. Should you have any questions or comments please contact me or my team at (403) 821-8120.

Sincerely,

Wayne Wingenbach  
President
